

Hey everyone - I am not as difficult to get in touch with as Kim implies! I have been out of town for back to back radiology meetings - but e-mail works great for me (cchiles@wfubmc.edu). I am so happy to get this update on everyone and a 35th reunion this summer would be wonderful.

At the last reunion - a combined 72, 73, 74 thing - (perhaps 93 or 94?) I received an award for the oldest graduate there. As you may remember, the only way I can not win this award is if Laurie or Julie shows up!

As Kim says, I am a chest radiologist at Wake Forest - I work 60% effort so that I have time for a real life. I married Willis Slane in 1992 - after traveling around the world, I married a guy from High Point. My sister Catherine, and Willis' youngest brother Bob (now Robert) set us up on a blind date. Willis and I have 4 springer spaniels, 2 cats, and a Tennessee walking horse - so our lives are very animal oriented. We have a house in Lewisville - just west of Winston-Salem, and we spend a lot of time down at Ocracoke Island during the summer months.

I am looking forward to reconnecting with all of you!

Caroline
